Re: Illinois Power Generating Company, Newton Power Plant
Federal ELG NOPP to Achieve Permanent Cessation Correction Letter
NPDES Permit IL0049191

Dear Mr. LeCrone:

In a letter dated January 25, 2021, Illinois Power Generating Company (IPGC), as a result of a transcription error, listed an incorrect date for the projected permanent cessation of coal combustion at Newton Power Plant's Unit 1. The unit is projected to achieve permanent cessation of coal combustion on July 17, 2027, consistent with the supporting documentation enclosed in the January 2021 NOPP submittal.

If you have any questions regarding the enclosed information or desire additional information please contact Rhys Fuller at 618-975-1799 or via email at rhys.fuller@vistracorp.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Phil Morris".

Phil Morris
Senior Director - Environmental
